

Caves and karst feature documentation responsibilities in NSW and ACT

AREA NUMBERER: Will allocate a unique number to new features in a cave area and maintain a record of all numbers allocated.

DOCUMENTATION COORDINATING CLUB/S: Will manage the numbering and documentation of cave and karst features in their assigned cave area/s in accord with ASF and NSWSC procedures. Will agree on a Cave Area Numberer from among their members. Will facilitate updating of information in the ASF's national Karst Database.

ADDITIONAL CLUB HAVING INTEREST IN AREA DOCUMENTATION: May have a previous history of undertaking some aspect of documentation work in a cave area. Will liaise with the current documentation coordinating club/s if planning to undertake any new/additional documentation project in an area.
